

USDA Borlaug Fellowship Program for Egypt

The U.S. Department of Agriculture (USDA) is pleased to announce the 2013 *Norman E. Borlaug International Agricultural Science and Technology Fellowship Program* (Borlaug Fellowship Program) for Egypt.

The Borlaug Fellowship Program promotes food security and economic growth by increasing scientific knowledge, advancing the transfer of new agricultural technology, and encouraging collaborative research to improve agricultural productivity. It offers training and collaborative opportunities to agricultural scientists, faculty and policymakers. Each Fellow works one-on-one with a U.S. mentor who coordinates the Fellow's training. After completing the U.S.-based portion of the fellowship, the mentor visits the Fellow's home institution to continue collaboration.

The 2013 Borlaug Fellowship Program is administered and funded by USDA's Foreign Agricultural Service (FAS). USDA selects U.S. mentors and host institutions for each Fellow.

***The application deadline for the 2013 Borlaug Fellowship Program for Egypt
is January 15, 2013.***

Objectives:

- Provide early to midcareer agricultural research scientists, faculty and policymakers with one-on-one training opportunities in any agriculture-related field (see targeted research area below for this country);
- Provide practical experience and exposure to new perspectives and/or technologies that can be applied upon completion of the program in their home institutions;
- Foster increased collaboration and networking to improve agricultural productivity and trade;
- Facilitate the transfer of new scientific and agricultural technologies to strengthen agricultural practices; and
- Address obstacles to the adoption of technology such as ineffectual policies and regulations.

Targeted Research Areas:

- **PRIORITY ONE RESEARCH TOPIC: ANIMAL HEALTH-RISK ANALYSIS**
 - **ANIMAL -- RISK ANALYSIS**
- **PRIORITY TWO RESEARCH TOPIC: PLANT HEALTH-**
 - **PEACH FRUIT FLY AND MEDITERRANEAN FRUIT FLY RISK MANAGEMENT AND MITIGATION**
- **PRIORITY THREE RESEARCH TOPIC: CLIMATE CHANGE – DROUGHT /SALINITY TOLERANCE AND BIOTECHNOLOGY**
 - **CLIMATE CHANGE – DROUGHT /SALINITY TOLERANCE AND BIOTECHNOLOGY, HOW ADAPTIVE STRATEGIES FOR DROUGHT AND SALINE SOILS FOR WHEAT OR OTHER KEY CROPS CAN POSITIVELY CONTRIBUTE TO EGYPT FOOD SECURITY AND WATER USAGE**

Length of Fellowships:

Fellowships are between six to 12 weeks in length. All program proposals should include goals that are achievable within the timeframe. After completing the U.S.-based portion of the fellowship, the mentor visits the Fellow's home institution for up to 10 days to continue the collaboration.

Eligibility Requirements:

Candidates will be evaluated, interviewed and selected based on the following criteria:

- Citizen of Egypt;
- Good working knowledge of the English language;
- Holds a master's degree with a minimum of two years of practical experience;
- Currently employed by a university, government, research institution and/or other institution with the intent to continue working in the home country for a minimum of two years following the return from the United States;
- Early to mid-stage of professional career; and
- Experience and focus in **(Animal Health-Risk Analysis, Plant Health-, and Climate Change – Drought /Salinity Tolerance and Biotechnology).**

Application Requirements:

Eligible candidates are invited to submit their completed application on line using the following link no later than **January 15, 2013**: <https://borlaug.myreviewroom.com/>. The following documents will be required under the online application package.

- Application form
- Program proposal (two to three pages) and action plan
- Signed approval from applicant's home institution;
- Two letters of recommendation
- Official Copy of college/university transcript for college/university degree(s) received; and
- Copy of passport identification page
